### Chapter 1 by Alexis Illescas

"Kate you need to leave now, These were the last words spoken by the man who committed an act of high treason against us how those the council recommend we take action?"

On January 25th 2021 the United States Government obtained the launch codes of each country and used them to destroy each other as they shot they're own as well to destroy those nations. By the time each nation had no more nukes the President now our dictator made a statement at the state of the union ordering Martial Law to take full effect and all was shown publicly. The reason is that during the attacks on the Freedom tower July 13th 2016 the people grew tired of their government and planned a revolution for they no longer felt safe and the plan remained for a while but the council grew tired of waiting and finally took complete control and they took control of everything. But one man who used to stand by his country devised a plan and led a mass exodus into Washington D.C. and killed 24 congressmen in order to halt a nuclear overtaking although he was unable to halt it he inspired others and although his disappearance is a mystery we continue the fight against our own nation we lead our people back to it's former glory we will destroy our FALLEN CAPITAL!
